

Noria Home

**Reduce Your
Electricity
Costs**

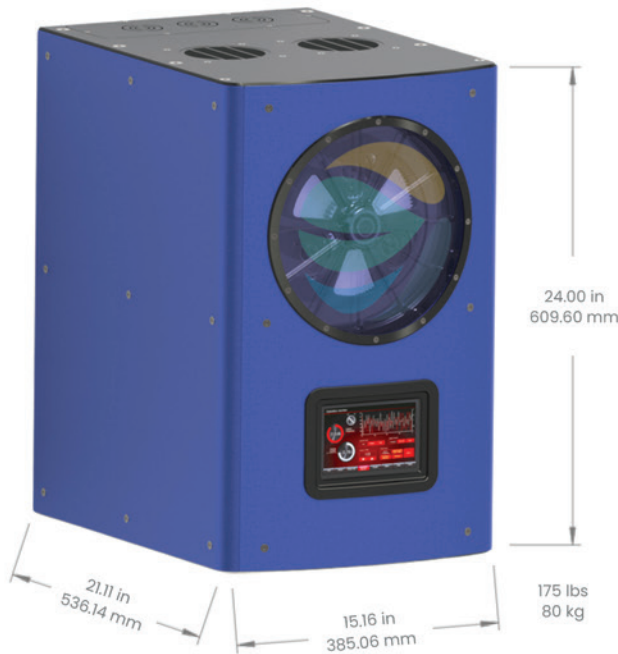

**Generate
10,500 kWh
Annually**

**Tax Rebate of
30% to 40%
of Total Cost**

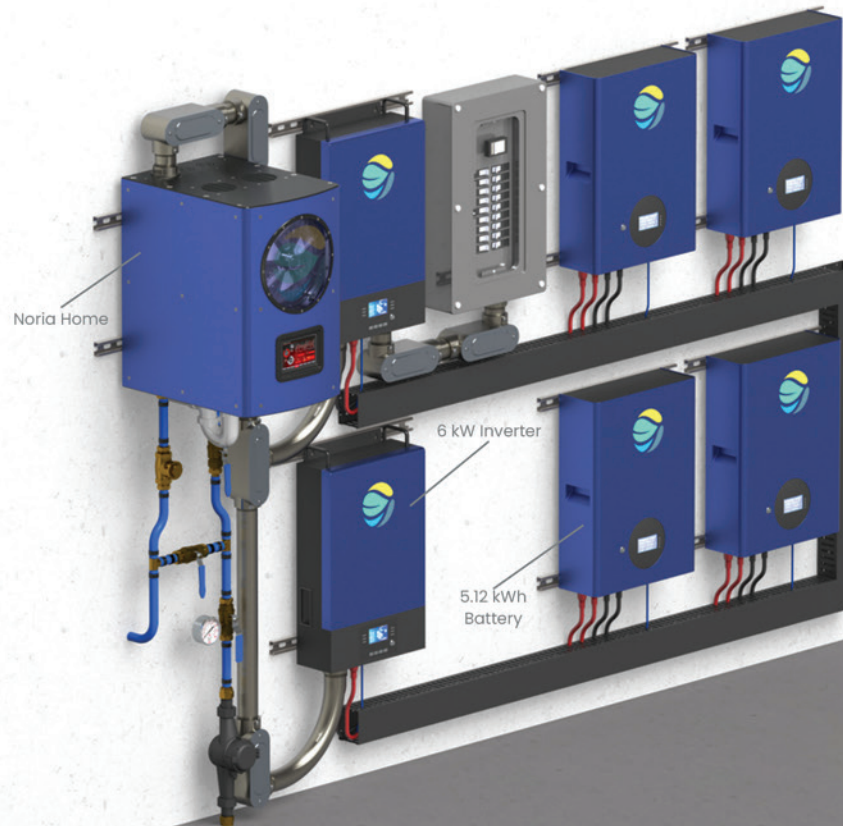

- 12 kW Capacity
- Up to 10,512 kWh Annual Generation
- Peak Demand Generation
- Industry Leading Cost-Efficiency
- 5X the Power Density of Solar
- Rapid Return on Investment
- Rapid Installation

**Clean Energy Generation,
Storage, and Transmission**

The Noria Home Power System captures unused energy from water flowing into a home.

Every flush, every wash, and every time water is running in your home, Noria is passively generating electricity.

- 6 kW Inverter Units
- 5.12 kWh Power Storage Battery Units
- 2 Batteries = 1.5 Days of Power Backup
- 81.9 kWh Max Storage Capacity

Coevo Energy
Energy from the Ground Up

Coevo Energy endeavors to produce products that increase clean energy access and help bridge the renewable energy gap.
